KEY MILESTONES

 Derayah's investment in D360 is more than just a financial stake – it's a strategic partnership that creates synergies with Derayah's core business.

D360 is rapidly scaling, and losses are declining faster than expected

Source: 2025 Annual Report, Net Profit Forecast Methodology

THESIS 3 | D360 BANK – HIDDEN VALUE & STRATEGIC SYNERGY

As D360 scales, operating leverage is materializing – losses are narrowing and the path to profitability is becoming clearer

Q1 2026 implied D360 loss annualizes to ~SAR 582m, below FY2025's implied ~SAR 648m

Q2 showed further improvement

WHAT THIS MEANS:

- 1 Build phase → scale phase
- 2 More customers spread fixed costs
- 3 Continued improvement toward break-even

13,7%	22,45	23,33	24,31	25,40	26,62

- Note on Sensitivity vs. Scenario Analysis:**

The sensitivity table varies the required return (r) and terminal growth rate (g) to isolate their impact on the DDM valuation. The scenario analysis in the valuation slides (Bear: SAR 25, Base: SAR 29, Bull: SAR 33) reflects broader operational assumptions, including AUM growth and D360 Bank loss trajectory, affecting all valuation methods. Both analyses are complementary.
